

Our Covid-19 Response

Here at Bistro 91, community means everything to us. We love to provide our friends and family with delicious food, a friendly atmosphere, and a chance to make great memories. These days, we also have an important responsibility to keep all of our patrons and staff safe.

Here are some of the ways we have dedicated ourselves to promoting health and safety at our restaurant:

- We follow all CDC guidelines regarding social distancing and sanitation
- Tables and bar chairs are kept a minimum of six feet apart
- Staff wear masks at all times
- Guests wear masks when not at the table
- Every table and chair gets sanitized after every use
- The entire restaurant is cleaned and sanitized biweekly
- No one is permitted to work when sick
- Outdoor dining options are available

As public health officials update recommendations and guidelines, we will adjust our procedures accordingly.

Thank you for your continued support of Bistro 91 during these difficult times; we look forward to seeing you soon.
